

WIN for STC!

U.S. Army Test and Evaluation Command's West Desert Test Center (WDTC)

On 14 January 2016, the U.S. Army Test and Evaluation Command's West Desert Test Center (WDTC) awarded *Team SURVICE* the Data Collection and Reporting Services Task Order (TO). Under this 5-year GSA OASIS Task Order, SURVICE will be providing on-site support at Dugway Proving Ground (DPG), UT, performing document writing, editing, data collection, and reporting functions. *SURVICE Engineering* along with *Science and Technology Corporation (STC)* put together a teaming agreement back in September 2015 and put together a successful proposal. This new contract follows the successful Dugway Data Support Services contract that was awarded to *STC* back in February 2006.

Congratulations to Team SURVICE!
